FOR IMMEDIATE RELEASE

WPwatercooler launches new show “Dev Branch”

After Seven years of beginner-focused live shows and podcasting, WPwatercooler launches new developer-focused show

Whittier,CA, For Immediate Release

- WPwatercooler launches a new monthly developer focused version of their weekly show replacing the episode on the first week of the month. WPwatercooler and it’s panelists - Jason Tucker, Steve Zehngut, Sé Reed, Jason Cospers and Russell Aaron have tried to stay from developer-focused discussions and topics for the sake of mass appeal.

Finding that many of their devoted viewers have grown with them, they wanted to devote the first episode of the month to Developer-only topics.

You can learn more info on this new show by going to:
<https://wpwatercooler.com/devbranch> and watch live <http://youtube.com/wpwatercooler>
and <https://facebook.com/wpwatercooler>

Grow With Us

This has always been the show for you about you and because of you. Sign up on our page with a topic suggestion for the first Friday! <https://wpwatercooler.com/joinus>

About WPwatercooler

October 2012 Jason Tucker and members of Orange County WordPress meetup started WPwatercooler as a way to bridge the gap between monthly meetups and have a place to talk shop during the work day. The network consists of WPwatercooler, WPblab and Dev Branch. Shows are streamed live on YouTube, Twitter, Facebook and Twitch
